## Emergency travel medical coverage

### Eligible expenses

We will cover eligible expenses up to the limit specified on the *Plan summary* page and those described below.

Hospital and medical services and travel assistance expenses must satisfy all of the following criteria to be eligible.

They must be:

- medically necessary,
- incurred due to an emergency which occurs during the first 60 days of travelling outside the province in which the insured person lives. The 60-day travel period starts on the first day of departure from the province where the insured person lives,
- incurred as a result of emergency treatment of an illness or injury which occurs outside the province in which the insured person lives, and
- for an insured person who is under the age of 80. This coverage ends on the insured person's 80<sup>th</sup> birthday.

Emergency is a sudden, unexpected occurrence of an acute illness or accidental injury requiring immediate, medically necessary treatment prescribed by a physician which cannot be delayed until the insured person returns to their province of residence.

Emergency services covered under the emergency travel medical coverage include any reasonable medical services or supplies, including advice, treatment, medical procedures or surgery, required as a result of an emergency. When an insured person has a chronic condition, emergency services do not include treatment provided as part of an established treatment program that existed before they left their home province.

### When 60 days of coverage ends

The 60 days of coverage ends, whether a claim has been made or not, when the insured person has left the province where they live and hasn't returned for the length of time needed to obtain another 60 days of coverage. The insured person must return to the province where they live for the required 24 hours or 20 consecutive day period to be eligible for another 60 days of emergency travel medical coverage.

If emergency travel medical coverage has ended and the insured person is:

- under age 65, they become eligible for another 60 days of coverage when they return to the province where they live for 24 hours.
- 65 or older, they become eligible for another 60 days of coverage when they return to the province where they live for 20 consecutive days.

### Examples

#### Example #1

Regardless of age, if the insured person departs from the province where they live on January 1<sup>st</sup> and travels for 60 days, they will have emergency travel medical coverage for the entire 60 days. If they have not returned to their province before the 61<sup>st</sup> day, they are no longer covered. To be eligible for another 60 days they must return to their province for the time specified based on their age.

### *Example #2*

If the insured person departs from the province where they live on January 1<sup>st</sup> and travels for 30 days, returns to their province for two days, then departs on February 2<sup>nd</sup> for another 10 days, and they are:

- under 65, the first trip is covered because it is within the first 60 days of travel. The second trip is covered because they have returned for more than 24 hours so they are eligible for another 60 days of coverage, which begins the day they leave on the February 2<sup>nd</sup> trip.
- 65 or older, the first trip is covered because it is within the first 60 days of travel. The second trip is covered because it is within 60 days from January 1<sup>st</sup>. The two trips plus the two days in between is less than 60 days so both trips will be covered under the same 60-day emergency travel medical coverage, and the remaining days of coverage expire 18 days later. The insured person will be eligible for another 60 days of emergency travel medical coverage once they have returned to their province for 20 days.

### *Example #3*

If the insured person departs from the province where they live on March 1<sup>st</sup> and travels for 40 days, returns to their province for 10 days, and leaves on April 20<sup>th</sup> for another 50 days, and they are:

- under 65, they have met the requirement to return to their province for 24 hours and are eligible for another 60 days of coverage starting April 20<sup>th</sup>.
- 65 or older, they have not met the required eligibility period and coverage ends on April 29<sup>th</sup>. They are only covered for the first trip of 40 days and 10 days of the second trip. The insured person did not return to their province for the required 20 days and is only eligible for emergency travel medical coverage for the first 10 days of the 50 days of travel.

## **Travel assistance services**

We will provide a toll-free number which gives insured persons 24-hour access to a worldwide assistance network. For a medical emergency which occurs during the 60-day travel period, the network will provide the following emergency assistance services:

- physician and hospital referrals,
- ongoing monitoring of medical treatment if an insured person is hospitalized,
- coordination of transportation arrangements via ground or air ambulance if it is medically necessary to return an insured person to Canada or transfer them to another hospital that is equipped to provide the required treatment,
- payment assistance for hospital and medical expenses,
- legal referrals,
- a telephone interpretation service, and
- a message service for insured persons; messages will be held up to 15 days.

## **Emergency payment assistance**

At the time of an emergency, the insured person or someone with the insured person must contact the emergency travel assistance provider. If contact with the emergency travel assistance provider cannot be made before services are provided, contact with the emergency travel assistance provider must be made as soon as possible afterwards. If contact is not made and emergency services are provided in circumstances where contact could reasonably have been made, then Sun Life has the right to deny or limit payments for all expenses related to that emergency. If we've paid for hospital and medical expenses on behalf of an insured person, you must sign an authorization form allowing us to recover the amount we've paid from the appropriate provincial or territorial health care plan.

If we've paid or have agreed to pay for expenses that require a portion to be paid by the insured person under this policy or the provincial or territorial health care plan, or are not covered under this policy, you must reimburse us for any amount payable by the insured person or not covered under these policies.

If we haven't paid for expenses incurred, we will only reimburse you when we receive proof satisfactory to us of your claim for reimbursement.

### **Hospital and medical services**

We cover reasonable and customary charges for the following items, less the amount payable by a provincial or territorial health care plan:

- public ward accommodation and auxiliary hospital services in a general hospital,
- services of a physician,
- economy air fare to return the insured person to the province where they live for medical treatment,
- licensed ground ambulance service to the nearest hospital equipped to provide the required treatment, or to Canada as determined by us or our emergency travel assistance provider,
- emergency air ambulance service to the nearest hospital equipped to provide the required treatment, or to Canada as determined by us or our emergency travel assistance provider, when the insured person's physical condition prevents the use of another means of transportation, and
- the services and return air fare for a registered nurse when the insured person's physical condition prevents the use of another means of transportation, and the insured person requires a registered nurse during the flight.

The maximum lifetime amount we will pay for hospital and medical services is \$1,000,000 for each insured person.

Expenses that are included as eligible expenses under other health benefits in this policy are also eligible while travelling outside Canada. These expenses are subject to the reimbursement percentages listed under the appropriate benefit in the *Plan summary* page.

### **Family travel assistance benefits**

We cover reasonable and customary charges for the following family assistance benefits:

- return transportation for an insured person who is under age 16, or is handicapped, and they are left unattended because you or an insured person is hospitalized outside the province where they live due to a medical emergency. We will provide an escort to accompany them, if we or our emergency travel assistance provider determine it's necessary. The maximum payable for the return transportation is a one-way economy fare for each insured dependant who is under age 16, or who is handicapped,
- return transportation of any insured person, if their hospitalization or another insured person's hospitalization prevents them from returning home on the originally scheduled, pre-paid transportation, and they must purchase new return tickets. The extra cost of each return fare is payable to a maximum of a one-way economy fare, less any amount reimbursed for the unused return tickets,
- a visit of a spouse, parent, child, brother or sister, of the insured person when that insured person is hospitalized for more than seven days while travelling without a relative. The visit includes meals and accommodation up to a maximum of \$150 per day, and round-trip economy transportation, for the person visiting. These expenses are also covered when it is necessary for one of them to identify a deceased insured person before the release of their body, and

- meals and accommodation up to a maximum of \$150 per day (in total, not per person) up to a maximum of seven days, if another insured person's trip is extended because an insured person is hospitalized.

The combined maximum amount we will pay for family assistance benefits is \$5,000 for each travel emergency.

### **Repatriation**

If an insured person dies while outside of the province where they lived, we will arrange for the necessary authorizations and the return of the deceased to the province where they last lived. Preparation of the deceased for repatriation includes expenses for cremation at the place of death. Return of the deceased includes a basic shipping container, but excludes expenses for burial, such as burial caskets and urns.

The maximum amount we will pay for the preparation and return of the deceased is \$5,000.

### **Vehicle return**

If an insured person is unable to operate a vehicle (owned or rented) because they are being returned to Canada for medical treatment, we will pay the cost of returning the vehicle to the province where they live, or the nearest appropriate rental agency. We will also pay this benefit when the insured person dies.

The maximum amount we will pay for returning the vehicle is \$1,000.

### **Exclusions and limitations**

At the time of an emergency, the insured person or someone present with the insured person must contact our emergency travel assistance provider. All invasive and investigative procedures (including any surgery, angiogram, MRI, PET scan, CAT scan), must be pre-authorized by our emergency travel assistance provider before being performed, except in extreme circumstances where surgery is performed on an emergency basis immediately following admission to a hospital.

If you are not able to contact our emergency travel assistance provider before receiving services, you or someone present with the insured person must do so as soon as is reasonably possible afterward. If you don't contact our emergency travel assistance provider and emergency services are received in circumstances where you could have reasonably contacted our emergency assistance provider, then we have the right to deny or limit payments for all expenses related to that emergency.

An emergency ends when the insured person is medically stable to return to the province where they live.

We will not pay the expenses:

- for services that are not immediately required or which could reasonably be delayed until the insured person returns to the province where they live,
- for services relating to an illness or injury which caused the emergency, if they were received after the emergency ended,
- for services provided to the insured after the date that we or our emergency travel assistance provider, based on available medical evidence, determine that the insured person can be returned to the province where they live,
- for services received by the insured person for an illness or injury, including any complications if the insured person unreasonably refused or neglected to receive recommended medical services for that illness or injury,

- for services related to an illness or injury, including any complications or any emergency arising directly or indirectly from that illness or injury, where the trip was taken to obtain medical services for that illness or injury,
- incurred by an insured person for an emergency which occurs when their 60 days of coverage has expired,
- for the regular treatment of a chronic injury or illness. Emergency services do not include treatment provided as part of an established management program that existed before the insured person left the province where they live,
- due to or related to a pre-existing medical condition. A “pre-existing” medical condition is one where symptoms appeared or required medical attention, hospitalization or treatment (including changes in medication or dosage) in the nine-month period before the insured person departs from the province where they live,
- due to pregnancy and incurred within four weeks of the insured person’s expected date of delivery,
- for a child born outside of Canada until the later of their coverage effective date, or the date the child returns to Canada,
- incurred on a non-emergency or referral basis, and
- incurred under any of the conditions specified in the *When we will not pay (exclusions)* section of the *Other information about your policy* pages.

To determine eligibility, we may require the attending physician to provide medical evidence certifying that the insured person’s medical condition was stable for a minimum period of nine months before the insured person traveled outside the province where they live. “Stable” means that the attending physician has stated that they does not expect a recurrence of the same medical condition or any problems related to that condition while the insured person travels outside the province where they live.

Due to conditions such as war, political unrest, epidemics, and geographic inaccessibility, emergency assistance services may not be available in certain countries.

Neither we nor the emergency travel assistance provider providing the assistance services is responsible for the availability, quality or results of the medical treatment received by the insured person, or for the failure to obtain medical treatment.

### **Liability of Sun Life or our emergency travel assistance provider**

Any physician or other health care professional who provides direct services to an insured person will be acting on the person's behalf only and will not be considered acting on behalf of Sun Life or our emergency travel assistance provider.

Neither Sun Life nor our emergency travel assistance provider assume any responsibility or liability for:

- any medical advice given by any physician or other health care professional.
- the negligence or other wrongful acts or omissions of any physician or other health care professional providing direct services under this plan.

No person will have any recourse against our emergency travel assistance provider or Sun Life because our emergency travel assistance provider suggested, or contracted with, a physician or other health care professional.

Decisions by a physician or other health care professional as to the medical need for providing any of the services covered by this benefit are medical decisions based on medical factors and, as such, will be conclusive in determining the need for these services.

## Semi-private hospital room provision

### Eligible expenses

We will cover eligible expenses up to the limit specified on the *Plan summary* page.

Eligible expenses mean the reasonable and customary charges for semi-private accommodation in a hospital limited to \$200 per day up to a calendar year maximum of \$5,000. If the insured person was pregnant when they applied for personal health insurance, we will only pay up to two days of hospitalization due to the pregnancy. If accommodation is in a convalescent hospital, we will pay \$20 per day up to 180 days for hospital admission due to the same or related cause.

### Exclusions

We will not pay for:

- any expenses when they are not medically necessary for the insured person's treatment, such as telephones or television rental charges, and
- expenses incurred under any of the conditions specified in the *When we will not pay (exclusions)* section of the *Other information about your policy* pages.

## Dental provision

### Eligible expenses

We will cover eligible expenses up to the limit specified on the *Plan summary* page.

If an anticipated expense is not specifically described as an eligible expense in your policy, it is your responsibility to contact us at 1-877-786-5433 **before** you incur the expense to confirm whether an expense is eligible. We may deny a claim if we have not confirmed with you whether the expense is eligible.

### Description of coverage

Dental care coverage pays for eligible expenses that an insured person incurs for dental procedures performed by a licensed dentist, denturist, dental hygienist or anaesthetist while you are covered by this plan.

For each dental procedure, only reasonable expenses will be covered if they are:

- up to the usual charge for the most economical alternate procedure, service or treatment,
- consistent with accepted dental practice, and
- appropriate for the insured person's condition.

We may obtain a second opinion at your expense before a procedure is performed to verify if the treatment is appropriate. We will never pay more than the fee stated in the dental fee guide for the province in which the insured person incurs the expense.

### How claims are paid

We will pay for eligible expenses taking into account all limitations and exclusions described in this provision.

An expense is incurred on the date the dentist performs a single appointment procedure. For procedures which take more than one appointment, an insured person incurs an expense once the entire procedure is complete.

If an insured person receives any temporary dental service, we consider it part of the final dental procedure used to correct the problem and not a separate procedure. The fee for the final dental procedure will be used to determine the usual and reasonable charge for the temporary dental service.

To determine eligibility, you or the dentist providing the service may need to provide us with a statement of the treatment received, pre-treatment x-rays and any additional information we consider necessary.

## **What is covered**

The following dental procedures are considered eligible expenses.

### *Preventive dental procedures*

  - one complete examination every five years,

- emergency services,
- palliative services,
- diagnostic tests and laboratory examinations,
- space maintainers for missing primary teeth (for insured persons under 12 years of age),
- pit and fissure sealants (for insured persons under 19 years of age),
- fillings – amalgam, composite, acrylic, or the equivalent of these fillings. When a bonded amalgam filling is placed on any tooth, we will determine eligible expenses on the basis of the cost of an equivalent non-bonded amalgam,
- uncomplicated removal of teeth (procedure does not require surgical flap or sectioning of the tooth),
- prefabricated metal or plastic restorations and repairs to prefabricated metal or plastic restorations, other than in conjunction with the placement of permanent crowns, and
- scaling and root planing (not to exceed eight time units per year).

## **Limitations**

The amount payable for an eligible expense is limited to the least expensive treatment that produces a professionally adequate result. If the insured person and dentist choose a more expensive course of treatment, payment is limited to the lower cost of the alternative treatment that we determine.

Each year the Canadian Dental Association (CDA) publishes a list of services and procedure codes. If there is a change in the CDA procedure codes, or, if we cannot determine that the expenses incurred are eligible expenses, payment may be based on the charges for similar services which are eligible expenses.

## Exclusions

We will not pay for:

- replacement of periodontal appliances and space maintainers which have been lost, stolen or misplaced,
- expenses incurred for the treatment of malocclusion or for orthodontic treatment,
- services rendered in conjunction with surgical services payable under a government plan,
- full mouth reconstructions, for vertical dimension correction or for correction of temporomandibular joint dysfunction,
- dental services required due to congenital malformation,
- charges for appointments that an insured person does not keep,
- charges for completing claim forms, and
- expenses incurred under any of the conditions specified in the *When we will not pay (exclusions)* section of the *Other information about your policy* pages.

## Making a claim for benefits

### When to make a claim

We must receive your claim within 12 months of the date that the eligible expense is incurred. An eligible expense is incurred on the date the services are received or on the date supplies are purchased or rented. If an anticipated expense is not specifically described as an eligible expense in your policy, it is your responsibility to contact us at 1-877-786-5433 **before** you incur the expense to confirm whether an expense is eligible. We may deny a claim if you have not confirmed with us whether the expense is eligible.

We may require itemized bills, attending physician statements, commercial laboratory receipts, reports, records, x-rays, study models or other information we consider necessary to assess the claim. You must pay any additional cost associated with providing this information.

After your policy ends:

We must receive your claim within three months of the date your policy ended. We will not pay for any claims received by us more than three months after the date your policy ended, regardless of when the eligible expense was incurred.

### Payment of claims

We will pay benefits when we receive proof you have incurred an eligible expense. We determine the amount to be paid by:

- applying the reimbursement percentage, and
- then applying the maximums.

How we calculate the amount we'll pay:

We confirm whether the expense you submitted is an eligible expense. We determine if there are any limitations and exclusions which are described in the applicable provisions. If any of the expenses aren't eligible, we subtract that expense from the total amount you are claiming.

For each eligible expense, we compare:

- the amount you are claiming,
- the customary charge for the expense, and
- the maximum amount you can claim as described on the *Plan summary* page.

The amount we pay is based on the lowest of these three amounts.

## Eligibility requirements

To be eligible, and continue to be eligible, for coverage under this policy, a person must be:

- a resident of Canada,
- covered under provincial or territorial health and drug insurance,

  - spouse:
    - your spouse by marriage or under any other formal union recognized by law, or
    - a partner of the opposite sex or of the same sex who is living with you and has been living with you in a conjugal relationship for at least one year. If you reside in Quebec, there is no minimum cohabitation period for common-law spouses if a child is born out of their relationship.

  - your child or spouse's child, other than a foster child, who does not have a spouse and who is:
    - i) under 21, or

  - a child who becomes disabled before the age limit and remains continuously disabled, qualifies as long as the child:
    - i) is incapable of financial self-support because of a disability,
    - ii) depends on you for financial support, and
    - iii) does not have a spouse.

It is your responsibility to tell us when an insured person no longer meets the eligibility requirements.

We will add your newborn children without evidence if you ask us to add them within 30 days of their birth.

For any child you ask us to add, we may require you to prove the child's relationship to you. We will also tell you if you need to provide evidence of insurability for the child you want to add who is age 31 days or older.

### Other information about your policy

#### **Information about our contract with you**

Once your policy is in effect, the following documents make up our entire contract with you:

- your application for insurance, including any evidence of insurability,
- the *Policy particulars* page, and

- this policy, including any amendments.

**THESE DOCUMENTS CONTAIN IMPORTANT INFORMATION ABOUT YOUR INSURANCE. PLEASE KEEP THEM IN A SAFE PLACE.**

All of our obligations to you are contained in the documents described above. Any other document or oral statement does not form part of this contract. This policy or any part of this policy may not be amended or waived except by a written amendment signed by two authorized signing officers of the company.

**Recovering payments from a third party (Subrogation)**

If we've paid a benefit under this policy as a result of an illness, injury or accident that a third party is or may be responsible for, we'll assert our right of reimbursement, where permitted by law.

Your obligation to reimburse us will not exceed the amount of the benefit we've paid. Our right of reimbursement will apply to any full or partial payments you are entitled to or may receive from a third party.

We won't be bound or affected by any compromised settlement between you and the third party unless you have our prior written consent. When a claim is settled and a lump sum payment is made, it is your responsibility to prove that no amount of that lump sum was intended as payment for eligible expenses we have paid under this policy.

If you do not assert your rights against the third party, you agree, where permitted by law, to assign all of your legal rights against the third party to us.

**Currency of this policy**

All amounts of money referred to in this policy are in Canadian dollars.

**Premiums**

Premiums are due on the date shown on the *Policy particulars* page.

Premiums vary by age and by how much provincial or territorial health plans cover. This means your premium reflects how old each insured person is and in which province they live.

We may change your premium from time to time for a variety of reasons, including our claims experience for insured persons with similar policies, and our expenses.

If we change your premium, we will give you at least 30 days written notice before the change is made.

**Grace period**

The grace period for the premium payments is 31 days and is allowed for each premium except the first. During the grace period, insurance remains in force and premiums continue to be payable by you.

We will terminate the policy when payment has not been made before the end of the grace period. We will send you written notice of termination. Any claims for expenses incurred after the policy has terminated are not eligible for payment.

## **Right to copies of documents**

You or a claimant may obtain copies of the following documents:

- your application for insurance
- any written statement or other record, not otherwise part of the application, that you provided to us as evidence of insurability.

The first copy will be provided at no cost to you but a fee may be charged for subsequent copies.

## **Other insurance**

Coverage under this policy is provided on a second payer basis. Any benefit payable to you under similar plans or insurance policies, contracts, government health and drug insurance plans, any private, public, provincial or territorial automobile insurance plan providing hospital, medical or therapeutic coverage or benefits, or any other third party liability insurance that is also in force will be coordinated with this policy to the extent that the total amount paid to you does not exceed the eligible expenses actually incurred by you.

## **Integration with government programs**

This policy will integrate with benefits payable or available under the government-sponsored plan or program (the “government program”).

The covered expense under this policy is that portion of the expense that is not payable or available under the government program, regardless of:

- whether you have made an application to the government program,
- whether coverage under this policy affects your eligibility or entitlement to any benefits under the government program, or
- any waiting lists.

## **When we will not pay (exclusions)**

We will not pay for:

- that we are not legally allowed to pay,
- for services or items that we consider cosmetic,
- for services or items that we consider experimental,
- for delivery, transportation and administration charges,
- for services and products that are self-prescribed or are rendered or prescribed by a person who is ordinarily a resident in the insured person’s home or who is related to the insured person by blood or marriage,

- expenses for services or supplies that are not approved by Health Canada or other government regulatory body for the general public,
- for services or supplies that are not usually provided to treat an illness, including experimental or investigational treatments. Experimental or investigational treatments mean treatments that are not approved by Health Canada or other government regulatory body for the general public,

- elective (non-emergency) medical treatment or surgery which is received or performed out of the province where they the insured person lives.

- hostile action of any armed forces, insurrection or participation in a riot or civil commotion, and
- participation in a criminal offence.

Qualified paramedical practitioners must:

- belong to a regulatory body or in the absence of a regulatory body, belong to an association approved by us,

This is not an exhaustive list of qualifications. We have the sole discretion to determine whether a paramedical practitioner is qualified to render a service or provide a supply.
