

# Invest in a future you're excited about with a TFSA!

## How can your TFSA help you invest in your future?

- Build retirement income
- Tax-free growth and withdrawals
- Save for a rainy day

This year, the 2024 TFSA contribution limit is \$7,000.<sup>1</sup> Any unused contribution room gets carried over. If you take money out, you get that contribution room back the following year.

We have a number of features to help you track your contributions and stay within your personal limit.<sup>2</sup> To update your contribution limit, sign in to [mysunlife.ca](https://mysunlife.ca), select **Manage my plan > Documents > Tax slips & Contribution Info > Contribution Limits**.

<sup>1</sup> To find your TFSA limit, consult your Canada Revenue Agency (CRA) My Account.

<sup>2</sup> You share your TFSA limit between all TFSA's you contribute to. Since we're not aware of any TFSA's you might have outside of your workplace plan, you're responsible for ensuring you don't over-contribute.
